

Vision

One Community Working Together...for full inclusion and participation of persons with developmental disabilities

Values and Beliefs

Our work is guided by these values:

- We value diversity in its many forms.
- We believe that every individual should be treated with dignity and respect.
- We believe that persons with developmental disabilities should have the information and support needed to make informed decisions about options available to them.
- We believe that persons with developmental disabilities should have the opportunity to make choices about services, supports, and other matters that affect their quality of life.
- We are passionate about inclusion of persons with developmental disabilities in all aspects of community life.
- We believe that our work should be guided by the results that we want to see.
- We believe that we are accountable to persons with developmental disabilities, their families, others who support them, and those who support our work.
- We believe that communities need heightened awareness and support in order to embrace the full inclusion and active participation of persons with developmental disabilities in all aspects of community life.
